

Michigan Department of Community Health Outpatient Prospective Payment System (OPPS) Project Decisions Documentation	TITLE / ISSUE :	
	Included/Excluded Facilities - PROPOSED	
	POINT PERSON	DATE INITIATED/REVISED
	Steve Ireland	2/6/06
Issue Description:		
What hospitals are to be included or excluded from Michigan's outpatient prospective payment system (OPPS)?		
Research and Discussions Summary		
Review current methodology and found all hospitals are treated the same. No historical MDCH precedent to treat some facilities (e.g., critical access or childrens hospitals) in a unique manner. All outpatient hospital facilities receive the same rate for any given procedure, except for cost-based procedures..		
Conclusion		
Include all outpatient hospitals in the proposed outpatient prospective payment system and treat each facility the same.		
Action Required (systems, publications, etc.)		
None. Issue is already accounted for in payment system logic.
